

Esther Johnson

Content Designer & UX Writer

helloestherjohnson@gmail.com · [LinkedIn](#) · [Portfolio](#)

Content Designer with 4+ years of experience designing product experiences across B2B and B2C fintech products and digital wallets. I simplify complex user journeys through content strategy, UX writing and scalable content systems. Experienced in rapid prototyping, localisation across 20+ languages, AI-assisted workflows, and collaborating with cross-functional teams to deliver intuitive, user-centred products.

EXPERIENCE

Xsolla · Berlin, Germany · 2024 – Present

UX Writer — Xsolla Wallet & Money Account (Full-Time)

- Lead content design for Xsolla Wallet and Money Account, simplifying complex financial workflows across onboarding, payments, verification and AI-powered experiences.
- Rapidly prototype content in Figma and implement production-ready content in GitLab, enabling faster iteration from design through release.
- Co-developed the B2C Tone of Voice and maintained reusable content standards that improve consistency across multiple products.
- Design prompts, conversational patterns and interface content for AI-powered experiences while leveraging AI to accelerate ideation, prototyping and content reviews.
- Partner with Product Managers, Designers, Engineers and Researchers from discovery through launch, translating user insights into intuitive product experiences.
- Built a plugin - UXW Validator to help review content in Figma. Also adopted by designers.
- Support localisation across 20+ languages, collaborating with native translators to ensure linguistic accuracy and cultural relevance.

Payday · Delaware, United States · 2023

UX Designer & Writer (Full-Time)

- Core contributor to the Version 3.0 redesign, a product pivot that drove over 700,000 new users within five months, directly attributable to improved onboarding copy and interface clarity
- Crafted mobile app copy to guide users through core product flows, reducing drop-off at critical conversion points
- Designed user-friendly interfaces for web and mobile, collaborating with developers to ensure copy and design met both usability and technical requirements
- Conducted user research and usability testing to gather insights, feeding findings directly into content and design decisions

Hetikal · Lagos, Nigeria · 2023

UX Writer (Contract)

- Developed clear, concise, user-centric copy for web and mobile apps, ensuring content aligned with design patterns and user mental models
- Crafted microcopy, tooltips, error messages, and CTAs that reduced user confusion and improved task completion across digital interfaces

Mediapanache · Lagos, Nigeria · 2022 – 2023

Content Strategist (Full-Time)

- Developed, edited, and optimised content across multiple channels, maintaining consistency in messaging and brand identity
- Owned the content calendar, ensuring consistent online presence and timely delivery of campaigns aligned to business objectives
- Produced PR campaign materials, press releases, blog posts, and media kits communicating key messages to target audiences
- Used data-driven research and user insights to continuously optimise content performance
